Designed Quantum States of Matter

GUEST LECTURE

Dr. Heather Partner

Associate Partner Nature
Communications, Berlin Office,
(Guest of Prof. Dr. Piet O. Schmidt)

Leibniz Universität Hannover
Welfengarten 1, 30167 Hannover
(building 1101)
Seminar room D326
at the Institute of Quantum Optics
29 November, 2018, 3:30 pm

"Inside the editorial process at Nature Communications"

Nature Communications is an open access journal that publishes high-quality research from all areas of the natural sciences. Papers published by the journal represent important advances of significance to specialists within each field. In this talk, I will provide an overview of the inner workings of the Nature journals, with a focus on the publishing process at Nature Communications. I will discuss details of the editorial and peer-review processes across the life of a manuscript from submission to acceptance, describe initiatives to maintain transparency in peer-review and publication, and mention some key aspects to consider as an author when submitting to the Nature family of journals.

**All DQ-mat members and all interested
are cordially invited to attend.**
